

DK LEARNING

GRADE 3

Digital Skills

Level: **Foundation** • Purpose: Learn before you practise

[← BACK TO LEARNING WEBSITE](#)

In this guide

1. Hardware and Software
2. Files and Folders
3. Using a Web Browser
4. Keeping Personal Information Private
5. Good Digital Habits
6. Practice questions, answers and glossary

How to use this guide

Read each chapter slowly. Look at the example, then try the “Your turn” task **without copying**. Write your own notes on the lines. When you finish, answer the practice questions and check your work with the answer page. After that, open the Grade 3 activity on the website.

Learning goals

- Group hardware as input, output or storage
- Organise files in folders with clear names
- Use a web browser safely
- Protect personal information online

Study plan

Step	What to do
1	Read the chapter and highlight key words
2	Study the worked example
3	Do the “Your turn” task on paper or on a computer
4	Write a short summary in your own words
5	Answer the practice questions, then check

Tip: Use clear names for your files, like ICT_Project_01. It saves a lot of time later.

1 Hardware and Software

Hardware is the physical part of a computer that you can touch, such as the keyboard, mouse and monitor. Software is the set of instructions that tells the hardware what to do, such as a drawing program or a game.

A computer needs both. Hardware without software cannot do useful work, and software cannot run without hardware.

Key points

- Hardware = parts you can touch
- Software = programs and apps
- Both are needed
- Examples of software: browser, paint, games

Worked example

Hardware: laptop, mouse

Software: web browser, drawing app

Your turn

Write five hardware items and five software items.

Check yourself

Explain each term in your own words:

Hardware

Software

My notes

2 Files and Folders

Files store information such as documents, pictures and audio. Folders help organise related files. Clear names make work easier to find.

A good name tells what is inside. Photo123 is not helpful. Sports_Day_2026 is much clearer.

Key points

- File = one item of saved work
- Folder = a container for files
- Use short clear names
- Do not store everything on the desktop

Worked example

ICT_Project/
Notes.docx
Picture1.png
Final_Report.pdf

Your turn

Create folders for English, Maths and ICT. Put one sample file in each.

Check yourself

Explain each term in your own words:

File

Folder

My notes

3 Using a Web Browser

A browser is software used to visit websites. Examples are Chrome, Edge and Firefox. You type a web address in the address bar or use a search engine to find information.

Search with clear words. Read the results carefully because not everything online is true.

Key points

- Browser opens websites
- Address bar shows the web address
- Search engines find pages
- Check if information is trustworthy

Worked example

Search: "how do plants grow for kids"
Open two results and compare the facts.

Your turn

Search a topic and write which website was clearer, and why.

Check yourself

Explain each term in your own words:

Browser

Search engine

My notes

4 Keeping Personal Information Private

Personal information is information that identifies you. Examples are your full name, home address, phone number, school and passwords. Sharing this publicly can be unsafe.

Before you post a photo or comment, think: would I be happy if everyone saw this?

Key points

- Do not share address or phone number
- Never share passwords
- Think before you post
- Ask an adult if unsure

Worked example

Safe post: I drew a cat today!

Unsafe post: I live at No. 12, Lake Road and I am alone.

Your turn

Sort these as safe or unsafe to share: favourite colour, home address, password.

Check yourself

Explain each term in your own words:

Personal information

Privacy

My notes

5 Good Digital Habits

Good digital habits keep you healthy and responsible. Take breaks from the screen, sit with a good posture and use computers for learning and fun in balance.

Be kind online. Do not use rude words. If someone is unkind, tell an adult and do not reply.

Key points

- Take screen breaks
- Sit with a good posture
- Be kind in messages
- Tell an adult about bullying

Worked example

Rule 20-20-20:

Every 20 minutes, look at something 20 feet away for 20 seconds.

Your turn

Make a weekly plan for balanced screen time.

Check yourself

Explain each term in your own words:

Posture

Bullying

My notes

Practice Questions

Part A - Choose the best answer

1. Which pair are input devices?
 - A) Keyboard + Mouse
 - B) Monitor + Speaker
 - C) Printer + Monitor
2. Which is storage?
 - A) SSD
 - B) Microphone
 - C) Monitor
3. What does a browser help you do?
 - A) Visit websites
 - B) Wash the computer
 - C) Print clothes
4. Which is safest online?
 - A) Keep personal details private
 - B) Share your address
 - C) Use the same password everywhere
5. Software is...
 - A) a touchable part
 - B) a program
 - C) a cable
6. Why do we save files?
 - A) To keep our work
 - B) To slow the computer
 - C) To delete it

Part B - Short answers

1. Give an example of hardware.

2. Why use clear file names?

3. Name one piece of personal information.

4. What is a browser?

Answer Page

Part A

1-A 2-A 3-A 4-A 5-B 6-A

Part B (sample answers)

1. Monitor, keyboard, mouse, etc.
2. They make files easy to find.
3. Home address, phone number, password, etc.
4. Software used to visit websites.

Mini glossary

Hardware	Physical parts of a computer
Software	Programs that run on a computer
File	A saved item such as a document or picture
Folder	A place that holds related files
Browser	Software for visiting websites
Search engine	A website that finds pages for a topic
Personal information	Details that identify you
Privacy	Keeping your information to yourself
Posture	The way you sit or stand
Bullying	Repeated unkind behaviour toward someone

Activity Preparation

Organise a sample school project into folders and identify safe and unsafe online actions. Then open the Grade 3 activity.

Think before you start

- Explain one important idea from this grade in your own words.
- Give one real-life example where this topic is useful.
- What mistake could a beginner make, and how can it be prevented?
- Write the steps you will follow before starting the Grade 3 activity.

Ready checklist

- | | |
|---|--|
| ☐ I read every chapter | ☐ I tried the “Your turn” tasks |
| ☐ I understand the key terms | ☐ I checked my practice answers |
| ☐ I wrote my own notes | ☐ I am ready for the activity |
